

Nearly 3x as many respondents to our research had a zero backup job failure rate while using Veeam

82% of Veeam customers agree Veeam is very important to the success of their key business initiatives.

66% of enterprises admit that digital transformation initiatives are being held back by unplanned downtime

82% of enterprises face a gap between user demand and what IT can deliver that results in unplanned downtime averaging \$21.8 million a year

## HIGH-SPEED RECOVERY

- Rapid recovery of what you want, the way you want it. Veeam Availability Suite helps you quickly recover the data you need to enable the lowest Recovery Point Objective (RPO) and Recovery Time Objective (RTO)

## VERIFIED RECOVER-ABILITY

- Guaranteed recovery of every file, application or virtual server, every time with SureBackup and SureReplica, you can be certain your files, applications, and virtual servers can be reliably restored when needed, and ensure business resiliency through automated backup and disaster recovery (DR) testing

## LEVERAGED DATA

- Using Backup Data and Storage Snapshots to create an exact copy of your production environment

## ANALYTICS

- Perform in-place, custom analytics to identify sensitive information or derive insights from your backup data

## COMPLETE VISIBILITY

- Proactive monitoring and alerting of issues before operational impact in your IT environment before they have a significant impact

## SCALE-OUT BACKUP REPOSITORY

- Create a single virtual pool of backup storage to which backups can be assigned, offering the freedom to easily extend backup storage capacity

## APPLICATION-AWARE

- Create application-consistent, image-level Virtual Machine (VM) backups with advanced, application-aware processing (including transaction log truncation)

## MINIMIZED DOWNTIME & DATA LOSS

- Define your business specific Recovery Point Objective (RPO) for your physical and virtual infrastructures. Sub-minute recovery can be achieved with zero impact on performance or resource utilization of the primary production systems

## Legacy vs. Veeam Backup

RTO & RPO: Hours/Days	RTO & RPO: < 15 minutes
Less than 6% Tested Quarterly	100% Tested
Failure in more than 16%	Failure Rate: 0%
Backup Data not Leveraged	Testing Every Upgrade/Patch
No Visibility	Proactive Visibility
